

Cut up the keywords and phrases you have been given and place them in the column that you think they should go in, add one to each row. In the last column explain your choice for each keyword. For those that you have placed in the “unknown” column, explain why you were unable to make up your mind on which column to choose.

Transformers only	Generators only	Generators and transformers	Unknown	I placed the word in this column because

Transformers only	Generators only	Generators and transformers	Unknown	I placed the word in this column because

Induction	AC only	Magnet	Coils	Step-up	Dynamo
Direct current	Split-ring commutator	Primary and secondary	Rotating	Increases or decreases pd	Highly efficient
