

Across

- 2. The number of waves that pass a certain point every second.
- 4. Sound waves with frequencies below the range of human hearing.
- 5. The unit that frequency is measured in.
- 7. Vibration.
- 8. All waves carry this.
- 9. A vacuum is a space without any _____
- 13. High pressure part of a longitudinal wave.

Down

- 1. A sound waves with a frequency higher than can be heard by a human.
- 3. The amount of energy carried by a wave.
- 6. Distance from the crest of one wave to the crest of another.
- 10. High frequency sounds waves produce high _____ sounds.
- 11. Technology that uses sound waves underwater to find fish.
- 12. Sound is this type of wave.
- 14. Low pressure part of a longitudinal wave.
- 15. Reflected sound wave.
